KYCDAPP USER MANUAL

STEPS FOR KYC PROCESS

Once you have clicked on 'Start your KYC' or 'Connect to Wallet', just read and follow the following simple steps and click on 'Proceed' button to complete your KYC and migrate to Era Swap Network (ESN).

KYC on Blockchain Network Done More Quickly & Securly

KYC DAPP is a DApp introduced in Era Swap Blockchain Network for Era Swap user's safety with the aim to follow global norms with respect to the global standards for Anti-Money Laundering (AML) and Combating Financing of Terrorism (CFT). KYC DAPP works like the gatekeeper to restrict the entry of imposters, scammers doing fraudulent or malicious activities for accumulation or exchange of Tokens. The use of KYC DAPP creates a fair balance between the freedom of anonymous use of Digital Assets & the ability to interact/exchange with other genuine users on Era Swap Ecosystem.

KYC through KYC DAPP is implemented for the good and long-term success of the Era Swap community altogether. After successful KYC Process via KYC DApp; Era Swap Community Members become eligible to use Era Swap.
